information

This course for doctors, nurses and midwives has been designed to enhance knowledge, technique, and confidence in cervical screening, with a strong focus on recent updates to self-collection.

Content includes:

- Updates on the National Cervical Screening Guidelines, with a focus on self-collection
- Human papilloma virus (HPV) and cervical cancer
- Communication and history taking skills
- Taking samples
- Case studies
- Practise cervical screening on pelvic models

The course covers theory through online learning, and practise through a 2-hour practical workshop which includes a case studies activity as well as practising cervical screening on pelvic models led by Family Planning Australia clinicians RACGP Accredited.
