**DOUGLASS HANLY MOIR
PATHOLOGY**

Basics of Skin Surgery

Presented by

Dr Deshan Sebaratnam

Dermatologist

Supported by

Dr James Pham

Registrar

Two thirds of Australians will develop some form of skin cancer by the time they reach retirement age. GPs play a critical role in the early diagnosis and management of skin cancer in a general practice setting. This session will explore the identification of danger zones for facial and neck surgery, interpretation of histopathology results following excisions, appropriate wound care post-surgery and will incorporate a hands-on practical session to demonstrate (and practice) how to complete superficial and deep suturing of skin defects.

Program

6.30pm - Registration/Light Refreshments (provided)

6.50pm - Welcome (GP Facilitator)

6.55pm – **Education Session** (a didactic session)

7.35pm - Q&A and Interactive discussion

7.45pm - **Suturing in Practice** (a practical session)

8.30pm - Evaluation and Close (GP Facilitator) 29 Ap

Learning outcomes

- Identify danger zones when operating on facial and neck lesions
- Interpret histopathological results following skin cancer excision
- Describe wound care after skin surgery
- Complete superficial and deep suturing of skin defects
