(max 12 participants per session)**

*Places are limited and may need to be prioritised*

## Spirometry Training Course

Brought to you by the National Asthma Council Australia as part of the Asthma Education Program

### Presenter

**Trevor Borgas**  
Respiratory Scientist

The Spirometry Training Course provides comprehensive training in the application, measurement and interpretation of expiratory spirometry in general practice. This 6-hour (excluding breaks) interactive workshop includes hands-on components to allow participants to apply their new knowledge in a practical setting.

### Learning Outcomes

- Identify the clinical indications where spirometry is recommended
- Demonstrate how to correctly perform a spirometry test using role play and peer review
- Interpret spirometry results to differentiate between respiratory conditions, such as asthma & COPD
- Assess practice quality assurance procedures for spirometry

### Accreditation

- Royal Australian College of General Practitioners 409754
- Australian College of Rural and Remote Medicine (Broken Hill 36066, Dubbo 36067, Orange 36068 & Bathurst 36069)
- Completion of this educational activity entitles eligible participants to claim up to 6 CPD hours
