- Complete and submit an evaluation for reporting and quality improvement purposes
- Please ensure this event suits your level of interest, experience and qualifications

Little Lungs: A Paediatric Asthma Update

Presented by:
Mary Jackson
National Asthma Council

This 1 hour session focuses on managing asthma in the paediatric population. The Australian Asthma Handbook details the latest guidelines for paediatric asthma from 0-12 months, 1-5 years, 6-11 years old. It provides up to date, evidence-based asthma management information for treating these age groups in primary care. This update is brought to you by the National Asthma Council Australia as part of the Asthma Best Practice for Professionals Program and Western NSW Primary Health Network.

Program

7.25pm Login
7.30pm Welcome, Acknowledgement of Country & Introduction
7.35pm Education session
8.20pm Q&A
8.30pm Evaluation & Close

Note: Q&A time may be extended if there is a high level of audience engagement

Learning outcomes

- Identify the steps involved in the diagnosis of paediatric asthma - referring to the *Australian Asthma Handbook*
- Describe the management of asthma across the different ages in children
- Summarise the important information to be included in a Written Asthma Action Plan
- Define the steps in managing acute asthma in primary care
