Basic Cardiopulmonary Resuscitation (CPR) for General Practice

HLTAID009 – Provide CPR

Training Provider:

Royal Life Saving Australia

This course describes the skills and knowledge required to perform CPR in line with the Australian Resuscitation Council (ARC) Guidelines. All candidates are required to successfully complete a written and practical assessment (including performing at least two minutes of uninterrupted CPR on an infant and an adult resuscitation manikin, which will require kneeling on the floor).

Learning outcomes

- Respond to an emergency situation, identify and minimise hazards, assess the need for CPR and seek assistance from emergency response services
- Perform CPR, following DRSABCD, in accordance with ARC guidelines
- Communicate details of the incident to emergency response services to improve patient outcomes
