- Email name, role, workplace and mobile number details of all attendees viewing webinar on the same device
- Complete and submit an evaluation for reporting and quality improvement purposes
- Please ensure this event suits your level of interest, experience and qualifications

EARLY DETECTION AND MANAGEMENT OF CKD

Presenters:

Introducing **Dr Jessica Conway** a new **Nephrologist** to our area, based at **Dubbo Health Service**. **Jessica** will be the lead presenter and will be supported by her colleagues **Drs Jeniffer Fiore-Chapman, Colin McClintock & James Collett**

The Western NSW PHN is pleased to partner with Kidney Health Australia to present this interactive case-based webinar. This session will explore a case study of a patient who is at risk, taking participants through the stages of how to ascertain if the patient has kidney disease, which is often bypassed. This case will be a 'typical' patient that presents in general practice.

Program

- 6.55pm** Login
- 7.00pm** Welcome, Acknowledgement of Country & Introduction
- 7.05pm** Education session
- 8.05pm** Interactive panel discussion / Q&A
- 8.35pm** Evaluation & Close

Note: Q&A time may be extended if there is a high level of audience engagement

Learning outcomes

- Outline the importance of early detection for those at risk of Chronic Kidney Disease (CKD)
- Describe the elements of the assessment for CKD (Kidney Health Check)
- Define the treatment options to delay progression of kidney disease
