

Programs for GPs

Talking About Suicide in General Practice

Audience:

GPs

Duration:

3-hours (plus breaks)

Topics Covered

Topic 1 – Introduction

Topic 2 – The Suicidal Crisis

Topic 3 – Acute Management

Topic 4 – After the Attempt

The Talking About Suicide in General Practice workshop aims to increase health professionals' skill and confidence in recognising presentations where suicide risk is high. You will learn how to undertake a detailed risk assessment, and provide effective management planning using a collaborative, team based approach.

Learning Outcomes

By the completion of this program participants will be able to:

- Undertake a suicide risk assessment effectively.
- Develop a collaborative safety plan.
- Provide effective management following a suicide attempt.

Accreditation

- RACGP: 6 CPD Activity Points
