wswphn.org.au/carepartnership-diabetes
and a member of the Care Partnership - Diabetes will contact you to discuss further.

We can turn it around by working together

Care Partnership - Diabetes seeks to work with your practice to support patients with T2DM to achieve better health outcomes by improving:

- Timely identification of T2DM
- Access to diabetes-related services
- Communication between healthcare providers
- Patient understanding of diabetes
- Knowledge and skills of existing workforce
