## Managing Chronic Conditions in People with Intellectual Disability – A Case Study

### Presented By:

**Dr Stephanie Lam**  
Rehabilitation Specialist

### Alison Devitt

Clinical Nurse Consultant & Team Leader

*WNSWLHD's Specialist Intellectual Disability Health Team will discuss evidenced-based approaches to chronic disease management and self-management in people with intellectual disability, and provide a case study example of implementation.*

## Program

- 7.00pm** Welcome, Acknowledgement of Country & Introduction
- 7.05pm** Education session
- 8.00pm** Q&A
- 8.15pm** Evaluation & Close

## Learning Outcomes

- Apply reasonable adjustments during all stages of managing health conditions in a person with intellectual disability
- Apply evidence-based approaches to management of chronic health conditions in people with intellectual disability
- Apply the principles of collaboration, communication and goal setting to support people with intellectual disability and/or their carers to self-manage their conditions
