Oral Medicine in Action: Diagnosis & Management of Dental & Oral Pathology Ranging From the Benign to the Potentially Fatal & From the Uncomfortable to the Excruciating

Presented By

Associate Professor Mark Schifter

Specialist in Oral Medicine

BDS, MSc (Oral Med), M Oral Med RCSEd, FFDS RCSI (Oral Med),
FRACDS (Oral Med)

Health Care Professionals are often baffled and confused by what goes on in the mouths of their patients. This webinar aims to review the range of the more common lesions and conditions of the mouth, their diagnosis and their management.

Program

7.00pm Welcome, Acknowledgement of Country & Introduction

7.05pm Education session

8.05pm Case studies and Q&A

8.25pm Evaluation & Close

Learning Outcomes

- Explain steps involved in undertaking a comprehensive examination of the mouth
- Outline common oral lesions and conditions, their diagnosis and management, and dental diseases that can complicate medical treatment, such as osteonecrosis of the jaws (ONJ)
- Support the care and management of patients with oral mucosal diseases
