

Working together to deliver virtual care in NSW

NSW Health and Primary Health Networks

The NSW Ministry of Health is seeking to consult with Primary Health Networks about virtual care. We want to know more about your views on the enablers and barriers to the use of videoconferencing and remote patient monitoring. Join us for an online discussion led by the Ministry and GP partners on these key strategic focus areas for NSW Health and how primary care can play a part in this work.

NSW Health recently published the [NSW Virtual Care Strategy 2021-2026](#). The Strategy outlines the steps we will take to further integrate virtual care as a safe, effective, accessible option for healthcare delivery in NSW.

We invite you to join us to discuss how we can work together to implement the Strategy and the current system-wide priorities. In particular, we're interested in your input on remote monitoring technology and videoconferencing in primary care.

Who: General Practitioners and Practice Managers.

When:

- Session 1 Thursday 21st July 2022 6:30pm – 7:30pm **OR**
- Session 2 Thursday 28th July 2022 6:30pm – 7:30pm

Where: Online. Details to be provided.

Register your interest by emailing Karol Petrovska at karol.petrovska@health.nsw.gov.au by COB Tuesday 19th July 2022. Please contact Karol via email if you have any further queries.

More information about the NSW Virtual Care Strategy and NSW Health's approach to virtual care is available on the NSW Health website: www.health.nsw.gov.au/virtualcare
