Event Photography, Footage & Recordings

By attending this event, you agree to being filmed, photographed and/or recorded by WNSW PHN and/or our identified event partner(s). Any recorded material may then be used for online, social media, marketing or promotional purposes. If you do not consent to your image(s) or voice being recorded or shared, please email cpd@wnswphn.org.au

Terms & Conditions

- A minimum of 75% of the event must be completed to receive an event certificate for self-reporting CPD hours or allocation of eligible RACGP & ACRRM hours
- Email name, role, workplace and mobile number details of all attendees viewing the event on the same device
- Please ensure this event suits your level of interest, experience and qualifications

Chicken and/or Egg - Dual Diagnosis Intellectual Disability and Schizophrenia

Presented By:

Dr Ria Leonard

MBBS MPsych FRANZCP CertChildAdolPsych

This education event considers the challenge, history and current approaches to the dilemma of chicken/egg (which came first?) and schizophrenia/ID (which one am I seeing in this patient?). This session will be an opportunity for primary healthcare professionals to develop their knowledge and skills in mental health assessment and care of people with intellectual disability and identify resources that may assist in these processes.

Program

7.00pm Welcome, Acknowledgement of Country & Introduction
7.05pm Education session
7.35pm Case study and Q&A
8.30pm Evaluation & Close

Note: Q&A time may be extended if there is a high level of audience engagement

Learning Outcomes

By the end of this activity, you should be able to:

- Outline the schizophrenias and their association with cognitive impairment & other neurodevelopmental conditions
- Identify vulnerabilities and considerations including risks of neuroleptics, epilepsy, physical restraint in restrictive practices
- Discuss emerging information on catatonia that is reshaping how this curious disorder is conceptualised
