(RACGP / ACRRM points allocated per session)

Why participate?

- Increase your skill and competence in patient management
- Acquire CPD points
- Receive access to multidisciplinary advice for your patients
- Become part of an engaged and supportive community of practice
- GPs presenting a case may be able to claim the MBS Case Conferencing Item No.

Registration

CLICK HERE to register for 2023 sessions

Terms & Conditions

A minimum of 75% of each session must be completed to receive an event certificate for self-reporting CPD purposes and for eligible participants to receive RACGP points & ACRRM hours

By attending this event you agree to the storage of your personal data and to being recorded during the ECHO sessions. Patient confidentiality must be maintained. An evaluation survey must be completed for each session.

You are invited to join a multidisciplinary panel in an online learning network to share cases and discuss Type 2 Diabetes in adults.

Panel

Dr Catherine Stewart, GP

Dr Sashie Howpage, Endocrinologist

Nicole Turner, Nutritionist

Dr Manik Mayadunne, Endocrinologist

Dr Alex Hoyle, GP

Kaye Foster-Powell, Dietitian

Alison Amor, Diabetes Educator

Tim Morris, Podiatrist

What's involved for participants?

- Ability to attend up to four monthly one-hour Zoom sessions per series
- Willingness to present one brief patient case study during the series
- Provide feedback via a short evaluation survey

How do I share a case presentation?

CLICK HERE or scan this QR code to access a Case Presentation Form

Program

- 7.00pm** Welcome, Acknowledgement of Country & Introductions
- 7.05pm** Didactic presentation (*presented by panel member*)
- 7.20pm** Case presentation (*presented by participant*)
- 7.35pm** Discussion and recommendations
- 8.00pm** Close

Learning Outcomes

- Individualise diabetes management strategies and monitoring based on treatment algorithms and patient-specific factors
- Discuss latest evidence-based lifestyle modifications as an essential part of diabetes management
- Assess and address patient-related factors and barriers to management
