

## CRRMH and WNSW PHN present Dr Robin Miller in Orange, NSW on Wednesday 4 July 2018

**You're invited to a Value Based Commissioning  
Workshop presented by:**

**Dr Robin Miller, PhD  
Deputy Director, Health Services Management Centre,  
University of Birmingham**

Robin is an applied health and social care academic with a particular interest in the development and leadership of new models of integrated primary care. He has co-ordinated international summer schools on integrated care and regularly speaks at European and International conferences and professional development events. Robin is the current Joint Editor in Chief of the International Journal of Integrated Care, an advisory group member of the European Primary Care Network, and a Fellow of the School for Social Care Research. Prior to his academic career he was a social worker, manager and commissioner, and has served as a non-executive director and chair of trustees within housing and charitable sectors.

IFIC Australia is the collaborating centre between IFIC and the CRRMH at the University of Newcastle, NSW. IFIC Australia has supported a series of activities to promote and support integrated care in Australia and the Asia-Pacific Region. The core mission of IFIC Australia is to develop capacity and capabilities in Australia and the Asia Pacific Region in the design and delivery of integrated care. IFIC Australia seeks to achieve this by providing a platform to develop and exchange ideas and promote activities in the region.
