

# Primary Care CPD Event

## Invitation

## Tricky diabetes: Acute illness, steroids and pumps

*This CPD activity will help to guide GPs in how to manage acute illness and steroid-induced hyperglycaemia in people with diabetes. It will provide participants with an overview of ADS/RACGP guidelines for emergency management of hyperglycaemia in primary care (including case presentation), discuss a case presentation of steroid-induced hyperglycaemia/management and deliver a brief summary of insulin pump technology.*

**Presented by: Dr Amy Wagstaff, Clinical Endocrinologist**

**Date:** Thursday, 6<sup>th</sup> June 2019

**Time:** 6.15pm to 8.30pm

**Location:** BATHURST – Venue TBC

**Target Audience:** GPs and Registrars. Interested Nurses, Pharmacists, Aboriginal Health Professionals, Medical Students, Specialists, Paramedics and Allied Health Professionals are also welcome to attend

**Program:**

- 6.30pm - Registration/Light Refreshments (provided)
- 6.50pm - Welcome
- 6.55pm - Local Service Update
- 7.00pm - Education Presentation & Case Study Discussion
- 8.00pm - Interactive Discussion/Q&A
- 8.30pm - Evaluation and Close

**Learning Outcomes:**

- Identify acute hyperglycaemic emergencies
- Recognise the impact of steroids on glycaemia and understand treatment strategies
- Discuss basic insulin pump function and emergency management
- Follow ADS/RACGP guidelines for emergency management of hyperglycaemia

**RSVP Date:** 31<sup>st</sup> May 2019
