Other information

The three Orange urologists provide on call, consultation and operative services to public and private patients with sessions in Orange, Bathurst, Cowra and Parkes.

New referrals are triaged and seen based on clinical urgency according to information provided in the referral. They work closely with local pathologists, radiologists and oncologists to ensure high quality multidisciplinary care for all Uro-Oncology patients consistent with world's best practice including quaternary level referral where appropriate. The urology Unit at Orange Hospital is accredited for urology training under the Urological Society of Australia and New Zealand.

* Patients with complex or neurogenic continence problems are also able to access the Continence Clinic – a multidisciplinary clinic involving spinal rehab and nursing services.
